**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1, 3, 5-9 have been allowed. None of the prior art discloses the combination of a linear array of bonds intersecting a non-linear array of bonds in a loop member of a fastener.

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 13-16 have been rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are only directed to a bond pattern, which is not an article of manufacture, process, machine or composition of matter.
